I graduated from a Bachelor of Information Technology at Central Queensland University in Sydney. I majored in Application development because it is my passion. I completed my degree with high distinction because of my abilities to develop software and discipline to study. I am a creative and enthusiastic person who love learning new technologies and resolving problems. Also, I always have new ideas because I enjoy to study and stay busy every day. I thrive on innovation, working in teams and satisfying customers' needs.

Key Skills Summary

- Full-stack web developer in JavaScript and Java EE.
- Engineering background to resolve complex mathematical and physical problems.
- Excellent planning and problem-solving skills.

Education

Bachelor of Information Technology – Application Development   2017-2019

Central Queensland University – Sydney

- High distinction (GPA 6.64 out to 7).
- **Courses**: Enterprise Software, Object-oriented Programming & Internet applications.
- **Software Skills**: Java EE, JavaScript, PHP, MVC and Web development.

Third-year Engineering of Information Technology   2015

University of Atacama – Chile

- A year of engineering in IT,
- **Other Skills**: Accounting, engineering and teaching classes.

Common core Engineering and Science   2011 - 2014

The University of Chile – Santiago of Chile

- A two-year engineering program in one of the best universities in Latin America.
- High distinction performance in high-level courses and learning about complex analytic processes.
- **Courses**: Calculus (I, II & III), algebra (I & II), physics, thermodynamics, chemical, computer programming and differential equations.
- **Software Skills:** Python and MATLAB.

Online Education

Node.js, Express, MongoDB & More: The Complete Bootcamp 2019   August - October 2019

- Three applications in Visual Studio Code and Node.js.
- **Software Skills:** JavaScript, Node.js, Express, MongoDB, PUG, GitHub and Heroku.
- **Other Skills:** Email broadcast and web payments systems.

Work Experience

DHL Global Forwarding through Programmed   **2017 - Present**

Warehouse Operator (Casual Position)

- Working in a team of 8 to 10 people at DHL Global Forwarding warehouse at the export department.
- Monitor deliveries quantity and integrity, notify issues to the customer service team of any issue with the freight and generate weekly reports of weekend stock.
- Training of new team member and coordinating the daily work schedule.
- I was in charge to implement a new monitoring system of the freight which reduced the freight check-in 1 hour every day.

University of Atacama   **2015**

Physical Tutor and Professor Student support

- Guide and teach students of first and second years of university in physic courses.
- Supporting Dr Jose Belinchon in physical laboratories.
- Plan tutorial class, resolver students' questions and correct students' assignments.
- Prepare plan laboratories' experiments before classes and verify results.
- **Software Skills:** Microsoft Word and Excel to correct assignment and MATLAB to check results.

Software Skills

Web application development

- Node.js
- JavaScript
- PHP
- HTML and PUG
- CSS
- Bootstrap
- MongoDB
- MySQL

Enterprise application

- Java EE
- Maven
- Glassfish
- Derby DB
- JSF and XHTML
- NetBeans IDE

Voluntaries

The Church of Jesus Christ of Latter-Days-Saints - Sydney   **2018 - Present**

Young Adult Advisor

- Teaching adults between 20 to 26 years to manage financial situations, plan for future studies and finding their more suitable careers.
- Prepare classes about personal financial management and setting goals.
- Prepare workshops and public speeches.

The Church of Jesus Christ of Latter-Days-Saints - Chile   **2012-2014**

Financial Secretary and Religious Missionary

- A two-year mission at the South of Chile helping disadvantaged communities.
- Financial Secretary for nine months and reducing the organisation expenses by 5%.
- Managing budget and expenses, paying rents and foods of over 200 volunteers and pay more than 100 customers.
- **Software Skills:** Microsoft Access and Excel and the organisation EPR to manage the finances.

Interpersonal Skills

- **Communication**: Two-year voluntary and a bachelor's degree improved my communication, also preparing public speeches has prepared me to do excellent presentations to customers.
- **Teamwork and management**: Working in a team at DHL Global Forwarding helped to share responsibilities and leading the team the last year increased my team planning skills.
- **Leadership**: Becoming a team leader and be part of a team at work and university provided me with great tools to lead and follow instructions, as well as to share ideas to improve work performance.

Achievements and Affiliations

- CQUniversity Vice-Chancellor's Scholarship
- Golden Key International Honour Society Australia
